

Upgrade to 11.3.4 Complete

Version	Upgrade Date
11.3.4	12 Oct 2021

New Features

- **Action Tags**
 - @RICHTEXT
 - Add a rich text editor toolbar to a notes field to enable data entry users and or participants to styling and format text they enter in the field.
- **User Management**
 - Upload and download users and roles and their permissions, and user role assignments via CSV files.

Changes & Improvements

- **Data Dictionary Revisions**
 - Compare data dictionary snapshots functionality added to the Project Revision History page.
- **PDF File Archive**
 - Download all PDF files functionality added to the PDF Survey Archive.
- **User Permissions**
 - When a form is added to a project in production, users are no longer automatically assigned View & Edit rights to the new form.
